Fairport, Pittsford awarded Erie Canal grants text size A A A

Updated: Tuesday, December 30 2014, 02:58 PM EST

Albany, N.Y - Eleven upstate New York communities have been designated to receive nearly \$1 million in grants from the New York State Canal Corporation.

A total of \$955,343 in grants will be awarded from the Canal Corporation, including Fairport and Pittsford.

The grants will support improvement projects across upstate New York. Each project will work towards enhancing and beautifying both the New York State Canal system and the Canalway Trail, two essential recreational and economic resources for millions of New Yorkers and visitors throughout the year.

The Fairport Industrial Development Agency was awarded \$50,000 for the expansion of the Thomas Creek Wetland Walk on the north side of the Erie Canal.

The grant will help expand connections to the Canalway trail, construct observation points, and improve signs.

The village of Pittsford was awarded \$50,000 for the construction of a Bicentennial Pavilion. The money will help construct a commemorative Pavilion on an existing concrete dock along the Erie Canal waterway in honor of the upcoming bicentennial of the Erie Canal.

This marks the last major component of revitalization along the Canalway trail at Schoen Place. The Pavilion will overlook the canal and be compatible in scale and design with the extant structures in the surrounding Warehouse District.
