IF YOU COULD DO ANYTHING, **WHAT WOULD YOU DO?**

Have you imagined a major improvement, expansion or completely new use for your property or business, but weren't sure how you could make it happen?

This is the time to think big.

The Village of Fairport is seeking project ideas for its application for $10 million in Downtown Revitalization Initiative (DRI) funding. We're looking for projects that could make a meaningful impact, including ideas that:

- Create or expand housing opportunities
- Bring new businesses, services or amenities to the community
- Create or retain jobs
- Support business growth or expansion
- Transform an underused property or space
- Bring an ambitious idea to life that might not otherwise be possible

You do not need to have every detail figured out.

Tell us what you would like to do, where you would do it, and what it could mean for Fairport. Visit **FairportDRI.com** to complete the short project submission form. *Call for Projects closes November 13, 2026.*

A FEW THINGS TO KNOW:

Location:	Projects must be located within the Village of Fairport.
Site Control:	Project sponsors must have (or be able to obtain) control of the site.
Project Size:	Projects should have a total project cost of at least $100,000. DRI funding may cover a portion of an eligible project's cost; project sponsors should expect to contribute other funding.
Don't Start Yet:	DRI funding is not reimbursement for work already completed. It is an incentive grant program. Do not begin construction or incur project costs before required grant approvals.

Submitting a project concept does not guarantee inclusion in the Village's application or an award of funding.
